

10th Grade

Congratulations to: **Angela Dickerson**

Angela has shown great improvement in English throughout the course of the 1st semester. She was frustrated 1st MP because of low grades on assignments. Instead of just giving up, Angela began to ask questions on how she could improve her skills. Her persistence and dedication to her goals is evident each class period. She is realistic with her goals and has developed quite a positive, enthusiastic attitude toward her new found success.
