

11th Grade

Congratulations to: **Jaysen Crum**

Jaysen is the kind of student every teacher hopes to have in class. He is always willing to contribute insightful observations to class discussions and puts an admirable effort into all of his work. When he makes a mistake, he takes accountability for it and always finds a way to improve. In my U.S. History class, Jaysen patiently takes time to help others understand material and does so enthusiastically and without prompting. Based on what one of his peers told me, this is true of him in all his classes. This student credited Jaysen's assistance as the main reason she had a good grade in Chemistry. Hearing this did not surprise me in the least. Jaysen is a great young man who is absolutely worthy of being named Student of the Month.
