

10th Grade

Congratulations to: **Cardeja Benton**

I am so excited to have Cardeja in my Honors world history class this year! Over the course of these first few weeks of school I have found that Cardeja comes into class every day with a positive attitude, all of the materials needed to begin class and a bubbly personality that really helps to make our classroom a positive place to be.

In the short time that we have been together I have seen Cardeja take it upon herself to help students around her when they needed help catching up on notes or finding out what work they had missed during an absence. I have also been very impressed to find that Cardeja is willing to ask questions for clarification or even to find out more about something that caught her interest. Moving ahead, I am confident that Cardeja will continue to make positive contributions to class.
