

9th Grade

Congratulations to: Jedaya Colson

Jedaya embodies qualities of personal resourcefulness and responsibility that will foster present and future success in her endeavors. I have watched her exercise a persistent "figure it out" mentality in order to complete assignments in spite of personal circumstances, she goes above and beyond to ensure that she's prepared—and best of all, she exhibits a growth mentality. "smart is something we become" is a NNPS motto, and it is ours as well in LC 104. Witnessing her growth in this class and as a scholar has been especially fulfilling as a teacher.
