

10th Grade

Congratulations to: **Zackery McPeak**

Zackery is an individual that desires to excel in everything he attempts, both on and off the stage. It takes skill and dedication to juggle extra-curricular activities such as the fall play, as well as a full course load including honors classes. In addition to working independently, Zackery has shown himself to be a team player. Along with his teammate he has designed a project that he plans to present at the City Science Fair in January. He is never afraid to ask for guidance and is quick to offer his assistance when needed.
