

# 11th Grade

## Congratulations to: **Virginia Plummer**

Virginia has some days where she struggles with some personal issues, but that doesn't stop her from always being on point in class... She always does her work, asks questions when she doesn't understand, and lets me know if she's having difficulties so that I can help her. She is a shining example of respect, responsibility, and resilience and well-deserving of this honor.
