

10th Grade

Congratulations to: **Connor Steele**

Connor Steele is a true Wolverine and represents the best Woodside has to offer! When I first met Connor, he stood out immediately with a glowing smile, the firmest handshake I have ever received from a student, and a clear enthusiasm to learn. His diligence to succeed and leadership in class is only enhanced by his great personality. Connor describes himself as relaxed and good-humored; I couldn't agree more. When Connor isn't working hard in Biology--his favorite class, or on other course work, he can be found on the baseball field, in the community refereeing basketball games, or raising money for the Leukemia and Lymphoma Society, who recently nominated him as the Student of the Year. As a cancer survivor himself, he values his role to raise awareness and help encourage those to remain strong during their treatment. Right, reason, respect, responsibility, and resilience- Connor embodies them all and lives the Wolverine Way in and out of the classroom!_
